### Product Description

This gear oil is a mineral lubricating oil for mechanical transmissions, formulated with high quality solvent refined base oils and special EP-additives to obtain the following properties:

- excellent resistance against oxidation
- a very high activity against wear, corrosion and foam
- a low pour point
- very good EP properties

---

### Application

This gear oil is used in hypoid differentials under very heavy duty conditions and should be used in all transmissions that require EP-transmission oils.
